Welcome Home

Prodigy offers you easy-to-use, simplified control of your home and entertainment from any room in your house or any place on the planet. Keep all your music, movies, lights, thermostats and security at your fingertips wherever you are and wherever you go. You are always in touch and in control with Prodigy.

Make your home the perfect sanctuary where you can escape every day stress. Just a simple tap of your finger brings you comfort, convenience and pleasure. Prodigy does all the thinking so you don't have to.

Simple + Affordable + Expandable

Simple to install – Prodigy products are all specially designed to seamlessly work together so everything works better. Fast, reliable wireless solutions mean that any home system can be set up quickly and easily, saving time and money.

Easy to use – Prodigy is the brains of your new smart home. All your entertainment and environmental systems are streamlined into one central controller, so you can enjoy your home technology without having to understand it. Prodigy intelligently manages everything for you, so you just swipe a touch screen or tap a button and Prodigy serves up whatever you want.

Affordable – Peace of mind, security and pleasure are not luxuries reserved only for the privileged. Prodigy provides the highest level of home entertainment, comfort and convenience for every family, every lifestyle and every budget.

Expandable – New video games, mobile devices and streaming media boxes emerge constantly. Prodigy is built on an open platform so you can easily add new devices and the latest technology whenever you want. You can start with home theater today; distribute music throughout the house tomorrow; add lighting and climate control down the road. Prodigy XP is the only gateway to Crestron – the global leader of advanced home control systems. Prodigy delivers modern home management without compromise, and keeps you in control.

Fun in Fashion

Make your home the gathering spot for family and friends. Host a Super Bowl party; movie night and slumber party for the kids; festive holiday meals and elegant dinner parties. These are the times of our lives and the moments we cherish forever. Create a warm welcoming atmosphere that invites the people you care about back again and again.

Entertainment is the focal point of our world today. TV shows, movies and sporting events are social activities and the common thread that binds us together. Make your home a fun family destination.

Turn your family room into a digital HD home theater. Browse and play all your favorite music, movies, Internet TV shows, websites and videos from any room throughout the house.

You don't have to be a prodigy to watch the latest Blu-ray movie or enjoy music throughout the house. We make it so easy anyone can select a source, such as an iPod®, and access it from any room. Scroll through the list of titles, artists and albums on a Prodigy touch screen as if you were holding the iPod in your hand. Listen to your favorite playlists and adjust volume in each room throughout the house. Create a soundtrack for your life or the right vibe for any occasion.

Saving Energy Comfortably

Is it too cold in the kids' room? Did I leave the kitchen light on? Sit. Relax. You can see the temperature or light levels in any room right on your Prodigy touch screen. Adjust thermostats, dim lights and set the alarm from the comfort of your favorite chair. Whether you're setting the desired ambiance or creating a comfortable atmosphere, Prodigy lighting and climate control makes it one-touch easy.

Conserve energy and save money without compromising comfort. How many times have you left the house in the morning and left a light on? Or the kids turn on every light in the room? Set back temperature when you're not home or while you sleep. Prodigy can intelligently manage the environmental systems in the house to conserve energy and save money.

Confidence and
Tranquility

You're on vacation and you can't remember if you set the alarm; or you're at work and you want to make sure the kids turned off the lights before they went out. Check on the house wherever you are – at the airport, on the beach, stuck in traffic or at the office. Use your favorite mobile device, such as the iPhone®, iPad®, Android® device, MacBook® or laptop, to adjust the temperature, control the lights and access the security system as if you were at home.

Get email alerts to let you know when the kids get home from school or that there's water in the basement. Control security cameras to see for yourself if there's damage from the flood of teenagers or rain while you were out. With Prodigy, it's like you're always at home so there's no risky business.
